

Position: Software Product Quality Specialist: Photoshop
Req ID: AS010893
Location: San Jose, CA

Overview

Adobe (NASDAQ: ADBE) revolutionizes how the world engages with ideas and information. For 25 years, the company's award-winning software and technologies have redefined business, entertainment, and personal communications by setting new standards for producing and delivering content that engages people virtually anywhere at anytime. From rich images in print, video, and film to dynamic digital content for a variety of media, the impact of Adobe solutions is evident across industries and felt by anyone who creates, views, and interacts with information. With a reputation for excellence and a portfolio of many of the most respected and recognizable software brands, Adobe is one of the world's largest and most diversified software companies.

Today, Adobe is better positioned than ever to push the boundaries of the digital universe. Under the leadership of President & CEO Shantanu Narayen, we're driving even greater innovation with powerful, compelling software solutions that meet the needs of customers and markets ranging from designers and filmmakers, to enterprises and governments, to developers and home users.

Recognizing that employees are at the core of our success, Adobe recruits and retains highly qualified and motivated individuals, creates an environment where they can innovate and achieve their best, and rewards them for their performance by giving them an opportunity to share in the company's success.

Position Overview

Are you a specialist in digital imaging science?

Do you possess an in-depth knowledge of color management?

Are you eager to bring your experience and analytical skills to a dynamic testing environment?

The Photoshop team is looking for an eager Quality Engineer that specializes in the area of digital imaging science and possesses an in-depth knowledge of color management. You need to exhibit potential in the areas of understanding QE methodologies and approaches, which encompasses scripting and automation capabilities. You must also be able to work independently to complete deliverables and tasks on time, have excellent communication skills and work well in a team environment with members of all functional groups.

Be prepared to detail your expertise and experience, answer some technical questions, describe details of imaging science and be able to speak to your color management background.

Requirements

- Relevant College Diploma or 3-5 years equivalent industry experience
- In-depth understanding of imaging science and color management
- Ability to apply specialized knowledge to areas of responsibility
- Acquires technical knowledge quickly, possessing both highly specialized technical skills coupled with broader computer competence
- Capability of understanding common testing methodologies
- Efficiently uses time to get results, juggle multiple tasks, develop resourceful solutions despite limited resources

Adobe believes personal fulfillment and company success go hand in hand, sustaining one another. In fact, our dynamic, rewarding working environment is well known – including eight years on FORTUNE magazine's "100 Best Companies to Work For" and other, similar accolades. By hiring the very best and brightest, Adobe continues to be a simply better place to work – creating a dynamic environment today and providing incentives for future achievement.

Adobe is an equal opportunity/affirmative action employer. We welcome and encourage diversity in the workplace.
