

Adobe® InDesign® CS3 5.0.1 Update Read Me

October 2007

Adobe Systems Incorporated

TABLE OF CONTENTS

1. Overview
2. System Requirements
3. Installation Notes
4. Resolved Issues
5. Resolved Issues for Developers

1. OVERVIEW

This update provides key fixes for InDesign CS3 in the areas of Indexing and Table of Contents, Text and Fonts, Dictionaries, Color, Scripting, Import/Export Graphics, InDesign Interchange files (INX), XML, Library files, Printing, and others.

2. INDESIGN CS3 SYSTEM REQUIREMENTS

Windows®

- Intel® Pentium® 4, Intel Centrino®, Intel Xeon®, or Intel Core™ Duo (or compatible) processor
- Microsoft® Windows® XP with Service Pack 2 or Windows Vista™ Home Premium, Business, Ultimate, or Enterprise (certified for 32-bit editions)
- 256MB of RAM (512MB recommended) for Windows XP; 512MB (1GB recommended) for Windows Vista
- 1.8GB of available hard-disk space (additional free space required during installation)
- 1,024x768 monitor resolution with 16-bit video card
- DVD-ROM drive
- QuickTime 7 software required for multimedia features
- Internet or phone connection required for product activation
- Broadband Internet connection required for Adobe® Stock Photos* and other services

Macintosh®

- PowerPC® G4 or G5 or multicore Intel processor
- Mac OS X v.10.4.8
- 256MB of RAM (512MB recommended) for PowerPC based system; 512MB (1GB recommended) for Intel based system
- 1.6GB of available hard-disk space (additional free space required during installation)
- 1,024x768 monitor resolution with 16-bit video card
- DVD-ROM drive
- QuickTime 7 software required for multimedia features

- Internet or phone connection required for product activation
- Broadband Internet connection required for Adobe Stock Photos* and other services

* Online services, including, but not limited to, Adobe Stock Photos and Acrobat® Connect™, may not be available in all countries, languages, and currencies. Availability of services is subject to change. Use of online services is governed by terms and conditions of a separate agreement and may be subject to additional fees. For details, visit www.adobe.com.

3. INSTALLATION NOTES

Please make sure that the InDesign application is shut down in advance of running the InDesign updater (at least 1 minute recommended).

4. RESOLVED ISSUES

This section provides a list of the resolved technical problems included as part of the InDesign CS3 5.0.1 update. Note that these issues are stated as the original problem statement, and not the corrected behavior. For general product usage and additional troubleshooting information, visit the Adobe Product Support Knowledgebase for InDesign at <http://www.adobe.com/support/products/indesign.html>, or choose Online Support from the InDesign Help menu.

Color

InDesign CS3 unexpectedly quits and corrupts documents when swatches used in transparency effects are deleted. [1534687]

When using the Adobe Color Management Engine (ACE) only: Placed image becomes black when converting to g_profile_87d CMYK profile. [1527805]

Documents

Memory leaks and performance degradation when zooming in to a page when “Ruler Per Page” setting is turned on in InDesign CS3. [1557664]

Memory leaks and performance degradation when panning a document with Overprint Preview turned on in InDesign CS3. [1557581]

InDesign CS3 Set Preview Prefs/Screen Mode is showing up under the Undo menu. [1558346]

Objects land on the wrong layers when duplicating items with Step and Repeat. [1570440]

InDesign CS3 unexpectedly quits after too much backspacing with Info panel open. [1527789]

Word count occasionally incorrect after adding a note to text. [1531834]

Export Graphics

EPS export of a page fails when a group containing a Photoshop file with transparency intersects the page, but the Photoshop file itself does not appear on the page. [1490414]

InDesign CS3 JPEG Export sometimes produces images with white strip through lower section. [1566058]

Import Graphics

Placed InDesign file outputs to PDF and Print with visible tiling. Tiling is also visible on screen before outputting the file, if View > Display Performance > High Quality Display has been selected. [1577524]

InDesign CS3 unexpectedly quits when opening a document with a placed Photoshop EPS file containing a clipping path. [1569109]

Placing certain FreeHand-created EPS files causes InDesign CS3 to quit unexpectedly. [1568207]

Indexing

InDesign CS3 unexpectedly quits when selecting “Update Preview” in the Index panel. [1570415]

Generating an index across a book can result in lost page references. [1593714]

When generating an index for a book, InDesign CS3 loses entries from the end of each alphabetic section. [1586154]

When generating an index for a book in InDesign CS3, the index entry page order reflects the order in which the entries were created. [1597961]

When updating an index in a book in InDesign CS3, the index entries and their associated page number(s) are not properly updated when the document has been modified—the last calculated page number is used, even though it is not correct. [1559789]

Layout

InDesign CS3 unexpectedly quits when exporting InDesign CS3 files containing damaged guides to INX format. [1549135]

On Mac, linked items may be found in the wrong folders after moving and/or renaming folders that contain the linked items. [1530330]

Printing

Processing times are longer than previous versions when printing multiple copies of un-collated multi-page documents. [1547778]

Adobe InDesign CS3 unexpectedly quits on the Macintosh when placing, viewing or printing PDFs with 1-bit raster image data. [1549360]

Table of Contents

The last character of the last entry in a Table of Contents is dropped if the Table of Contents includes a document in a book and the Table of Contents INDD file is the last document in the book. [1558323]

Creating an alphabetized Table of Contents across an InDesign CS3 book results in incorrect page numbers. [1544275]

Text

Can't launch Adobe InDesign CS3 on Windows Danish platform after installation. [1507644]

InDesign CS3 incorrectly flags several common words as misspelled when using the German 2006 Reformed dictionary. [1485775]

InDesign CS3 unexpectedly quits when opening an InDesign CS3 Document without a language selected. [1566533]

InDesign CS3 unexpectedly quits when a user selects the Font Family or Font Style dropdown menus in the Character panel. [1565569]

When characters with diacritics begin a line after hyphenating, the diacritic should be dropped in Dutch: Reformed. [1530327]

InDesign CS3 unexpectedly quits when using Winsoft-based spelling dictionaries to spell check Russian language text on Windows. [1562676]

Extra wrap is applied on INX import when overridden master object with text wrap overlaps object on layout page. [1575833]

Em dash at the end of a line of text is collapsing to a hyphen in a certain text frame size. [1579345]

Hyphens are counted as characters of a word when determining hyphenation break points, but are ignored when they conflict with hyphenation limits. [1579343]

Leading and trailing numbers are counted as characters when determining how to break a word for hyphenation. [1580804]

Unable to add word to third party provider's user dictionary in InDesign CS3. [1534513]

Stack overflow and unexpectedly quits after recursive loading of styles in the default workspace. [1527638]

InDesign CS3 unexpectedly quits when a user types a Korean character and a space in the Notes dialog with inline input turned on (Windows only). [1527748]

When a line breaks at a discretionary hyphen followed by a nonbreaking hyphen, the discretionary hyphen fails to draw. [1527793]

InDesign CS3 unexpectedly quits on launch in CoolType while building font menu previews if a corrupt font exists in the System Fonts folder. [1567612]

InDesign CS3 unexpectedly quits on launch in CoolType's CTInit if a corrupt font is present in the System Fonts folder. [1567624]

Fonts managed by third party font management utilities aren't consistently activated by InDesign CS3. [1561858]

Document Corruption: InDesign CS3 unexpectedly quits when copying, pasting, or moving objects from a Master Page if they have Text Wrap applied. [1575755]

AJ1-6N: JIS2004 glyphs aren't adopted when applying composite font or changing Kanji to Pr6N fonts. [1538238]

For JCKK only: InDesign CS3 unexpectedly quits when user selects Text Frame in the Find/Change Objects dialog then click OK. [1569007]

UI

Windows InDesign CS3 unexpectedly quits when using type ahead in the Quick Apply popup if it contains style groups. [1567574]

Digital Editions

The updated InDesign CS3 Digital Editions plug-in containing Table of Contents support and other fixes, posted on Adobe.com at the end of May 2007, is included now in this updater. [1555849]

Version Cue Integration

Version Cue CS3 Integration: Status of a checked out, saved file is shown as 'Local Changes' in open dialog box. [1572332]

When adding a Version Cue CS3 managed image to an InDesign CS3 document there are sections missing from the XMP metadata package [1579235]

5. RESOLVED ISSUES FOR DEVELOPERS

This section provides a list of the resolved technical problems included as part of InDesign CS3 5.0.1 Debug update only.

InDesign CS3 Debug generates an assert when loading a plug-in that has a Window menu sub-menu. [1560672]

When a user does a context switch in InDesign CS3 Debug builds, the application generates the following assert: MRedrawInterrupter::CheckForInterrupt. [1532788]

Developer prefix IDs greater than 0x1000 cause an assert in StandardBossIterator when reading/writing persistent data. [1578785]

Cannot set overprinting option when using SnapshotUtils in InDesign CS3. [1548532]
