Issues resolved

This section provides information on the following issues resolved in the latest RoboHelp (2015 release) Update 4.

1. Responsive HTML5 output is not optimized for Google search, which makes the output unsearchable.
(Ref# **4190911**)
2. If a topic containing bookmarks has conditional build tags applied on it, the bookmark does not navigate to the correct location in the generated output.
(Ref# **4179525**)
