

Edit Text in Any PDF File

Old way: Track down original file, update, recreate PDF file.

New way: Instantly edit text in a PDF on your desktop or iPad, breathe a sigh of relief.

According to Adobe research, an incredible 83% of office workers feel their ability to be productive at work is hindered by outdated ways of working. Learn more about this research at: <https://adobe.ly/PaperJam>

Mobile • iPad

- STEP 1 Make sure you're signed into Adobe Document Cloud on Acrobat Reader mobile. (Requires an Acrobat DC subscription.)
- STEP 2 Open the file to edit.
- STEP 3 Tap the tool icon in the upper left of any view.
- STEP 4 Tap **Edit PDF**.
- STEP 5 Tap and hold on a word to bring up the keyboard.

Desktop

- STEP 1 Open a file in Acrobat.
- STEP 2 Click Tools > **Edit PDF**.
- STEP 3 Select the text and edits as necessary.
- STEP 4 Use the **Format** panel in the right-hand pane to apply advanced formatting options.
